

Contents of Plant nutrition *courier* 2009 - 2010

December 2010

- Fertiliser phosphorus more efficient than thought
- American public labs in stormy weather
- Handling effects on fertiliser coating
- Probing nitrate concentration in soil solution
- Disinfectant reduces aluminium stress
- Mycorrhizae regulate P transporter genes
- Gene discloses N-status of potato
- Presentations of the 2010 international ASA-CSSA-SSSA annual meeting
- Plant nutrition bookshop

October 2010

- The scent of sulphur deficiency
- The dark side of humic acids
- Fertiliser substitutes
- Virtual Fertilizer Research Center
- Disease-suppressing bacteria reuse phosphate from bone meal
- Plant nutrition on the web: NuGIS
- Publications about plant nutrition research

August 2010

- Milling minerals to slow release fertilisers
- Nitrate linked to hormone-like disturbance of water flea
- Plant nutrition on the web: Sustainable Phosphorus Futures
- Publications about plant nutrition research
- Plant nutrition presentations at the 19th World Congress of Soil Science

June 2010

- Potassium sulphate improves lily flower colour
- Boron restricts potato early and late blight development
- Boron protects peach
- Plants fine-tune root growth on nutrient placement and competitors
- Plant nutrition on the web: Dig It! The Secrets of Soil
- Granular potassium sulphate
- One-application granular turf fertiliser
- Doubled sulphur content in liquid N
- Growth regulator sold as EC fertiliser
- Face for white granular potassium chloride
- Publications about plant nutrition research

April 2010

- Gooseberry sawfly afraid of epsom salt
- A case of sufficiency
- Plant nutrition on the web: UreaKnowHow
- Shooting fluid fertilisers
- Cations compatible with glyphosate
- Halve a dose urea
- Optimal pH around seeds
- Nitamin Nfusion
- Slow release N+S+lime
- Publications about plant nutrition research

February 2010

- Nitrification inhibitors beneficial for grazed pastures
- Nitrification inhibitors stimulate biocontrol in crops on hydroponics
- A case of sufficiency
- Plant nutrition on the web: Nitrogen Visualisation
- Novel nitrification inhibitors in the making
- Facelift for nitrapyrin
- Nickel sequestration
- Less inerts
- Grass roots as source of nitrification inhibitors
- Publications about plant nutrition research

December 2009

- Urea increases grain protein concentration
- Simulation model predicts nitrate leaching from soil
- Simple method to estimate CEC
- A case of sufficiency
- Plant nutrition on the web: Secure Your Fertiliser
- Changing climate: Costs and efficacy of EU policy measures on nitrogen losses
- Presentations of the 2009 international ASA-CSSA-SSSA annual meeting
- New camera for photosynthesis measurements
- Publications about plant nutrition research

October 2009

- Vegetable nitrification inhibitors
- Iron deficiency not fully restorable
- Salts can hydrophilize leaves
- Calcium with adjuvant
- CO₂ foliar fertilisers for field-grown crops
- Publications about plant nutrition research
- Presentations of the 16th International Plant Nutrition Colloquium

August 2009

- Waxy substance is key for uptake
- Acidic slurry is more climate-friendly
- New fertiliser market analyser
- A case of sufficiency
- Plant nutrition on the web: Fluid fertilisers
- Changing climate: Phosphorus fertilisers from sewage sludge
- Fertilisers from municipal sewage sludge
- Publications about plant nutrition research

June 2009

- Surfactant may improve nitrogen status
- Plant nutrients as safeners
- Fertiliser research in particle accelerators
- Nitrogen-fixing bacteria protect soybeans against aphids
- A case of sufficiency
- Plant nutrition on the web: VISUPLANT
- Changing climate: Sulphur demand increases
- Horticultural grade polyphosphates increasingly prized
- Better performing granular formulations
- Safer ammonium nitrate
- Micronized elemental S
- Novel acidifying compositions
- Energy-saving production process for SOP
- Publications about plant nutrition research

April 2009

- Digital manganese analyser
- Phosphite enhances rape yield
- Seed oil reduces nitrification
- Stomata reassessed
- A case of sufficiency
- Plant nutrition on the web: NDICEA stikstofplanner
- Changing climate: Air temperature rises and so does soil temperature
- Publications about plant nutrition research
